Davey's Bridge

Construction Activities and Upcoming Work

Construction signs have been placed, clearing and grubbing operations and sediment control measure installation have begun in the North East section of the project. Clearing and grubbing will continue in the North West section of the project as well as the installation of sediment control measures.

Traffic Delays

Legacy Contracting Inc is scheduled to work Monday thru Thursday. Flagging operations may be required between the hours of 7AM and 5PM on these days with up to 15 minute delays. Traffic is currently being stopped at the intersection of Banks-Lowman Road and Middle Fork Road and at the East end of the project.

Alternate Routes

No alternate routes are currently available.
